Program Administrator and McDonnell Foundation Fellow

Checklist for workshop/working group proposals

- 2-page vision statement, which includes brief information on the following:
 - a. What questions/problems you wish to address
 - b. Why addressing these questions/problems is important
 - c. A brief outline of your workshop/working group structure
 - d. An indication of when you hope to hold your workshop or convene your working group
 - e. What outcomes/products you hope to get from your workshop or working group

- List of people you hope to have involved, which includes information on the following:
 - a. Institutions for each of the individuals
 - b. Information about whether each person is involved in HPS, life sciences, both, or other field

- Budget

Note that it is strongly encouraged to have MBL faculty/postdocs/other staff involved in your workshop or working group. A proposal that does not include at least one person from the MBL is unlikely to succeed.

Please send these items to Kate MacCord (kmaccord@mbl.edu).
