

Lifter attachments to lift PLI-100 and PLI-100A Pico-liter injectors ~6cm above a surface. Accommodates storage under and above injectors. Injector feet are different and require different printed lifters. Adhesive rubber non-slip surface can be added to bottoms to help stabilize injectors.

Developed by the National Xenopus Resource (NXR) at the Marine Biological Laboratory and designed by Carl Anderson.

Visit www.mbl.edu/xenopus for more information about our work and additional 3-D printed objects.
